PROFESSIONAL SUMMARY

I am a student majoring in Applied Mathematics with a strong passion for data analysis. I have skills in using tools such as MySQL, Python, Excel, and Java for data management. I am skilled in leveraging data to solve problems and analyze system performance, abilities I have developed through university projects and independent study.

Currently, I am seeking an internship opportunity to gain real-world experience, work with a professional team, and further improve my skills. I learn quickly, am responsible, and am eager to contribute effectively to the organization.

EDUCATION

2023 - Present
King Mongkut's Institute of Technology Ladkrabang

Bachelor of Science (Applied Mathematics)
- GPA : 3.53 / 4.00
- Related courses: Systems Analysis and Design, Database Systems Concepts , Operattions Research , Machine Learning , Data Mining technique.

SKILLS

- Programming : Python , Java , HTML , CSS.
- MySQL : SQL(Basic) , ERD , database fundamentals.
- System Analysis : DFD , Requirements , Use Case.
- Soft Skills : Analytical Thinking , Communication , Team Work.

PROJECTS EXPERIENCE

NextGen Intern (Internship Job Search Website for Students)
Tech / Tools : PHP, MySQL (XAMPP), HTML/CSS, JavaScript
- Developed a website that connects students seeking internships with companies offering positions.
- Designed and analyzed the system using ER Diagram and Data Flow Diagram (DFD).
- Use HTML and CSS to develop the frontend and connect it with XAMMP as the backend.
- Developed various functions such as adding, editing, deleting, and searching internship information.

ACTIVITIES & LEADERSHIP

Math Adventure (Volunteer/Staff) — KMITL | Nov 2025
- Assisted with activity preparation and on-site coordination for participants.
- Introduce and teach the students at the camp to enhance their knowledge in mathematics.

Math Camp (Volunteer/Staff) — KMITL | May 2024
- Supported camp operations by organizing activities and assisting participants during sessions.
- Coordinated with the team to ensure the schedule and activity stations ran smoothly.

Java Programming Teaching Assistant (TA)
- Assist the instructor in teaching the Java course.
- Teaching how to use the Java programming language.
