PROFESSIONAL SUMMARY

I am a student studying Applied Mathematics with a strong interest in data analysis. I can use tools like SQL, Python, Excel, and Java to work with data. I enjoy finding patterns and solving problems using data. I have learned from university projects and by studying on my own. I am looking for an internship where I can gain real work experience, learn from a team, and improve my skills. I am a fast learner, responsible, and ready to work hard.

CORE COMPETENCIES

- Statistical and Mathematical skills
- Data Management & SQL
- Programming
- Data Visualization & Communication
- Machine Learning
- Database
- Problem-Solving & Critical Thinking
- Financial
- Math modeling
- Risk analysis
- Data mining

TEACHING EXPERIENCE

Mathematics Tutor (Part-time) 2019 – Present (3 years)

- Taught mathematics to students from Grade 1 to first-year university level
- Designed lesson plans and practice exercises tailored to each student's ability
- Explained complex mathematical concepts in a clear and easy-to-understand manner
- Helped students improve exam results, homework performance, and confidence in mathematics
- Developed strong skills in communication, analytical thinking, and problem-solving

PROJECT

NextGen Intern (Internship Job Search Website for Students)

- Developed a website that connects students seeking internships with companies offering positions
- Utilized HTML, CSS, PHP, and SQL with XAMPP for database and server management
- Designed and analyzed the system using ER Diagram and Data Flow Diagram (DFD)
- Implemented core functions for adding, editing, deleting, and searching internship information
- Demonstrated strong skills in system analysis, database design, and full-stack web development
- Focused on data accuracy and user-friendly interface design
